

## Mobility Management Services

Unsecured company data can cost millions in lost research, regulatory fines, or litigation settlements, but protecting your information should not make it harder for workers to get their jobs done.

**Stone Forest IT (SFIT)** helps organisations to reduce security risks and enable workers to be more productive with features such as:

- 🛡️ Identity and access management
- 🛡️ Information protection
- 🛡️ Device and application management
- 🛡️ Cyber intrusion detection
